Hi Mary,

Presumably you are comfortable with the ROS and talking points based on the prep call yesterday. Let me know if you feel like you need anything else in preparation for leading the consult Monday.

I've attached the prep document – reordered a bit, moved the run of show up to the beginning, added Seminole anticipated participants to your TPs, added another sentence in yellow (not thinking you should lay out all the EPA participants, too many!)

I then added all the participants (for your reference) from EPA following the ROS, and have the background info as the last part.

If I hear of new participants from Rosemary or Katie, between now and then, I will let you know. Hope that is helpful.
